

2026/2027 Re-registration is now open and will close on Monday 23rd February 2026

What have we been up to?

- We are trying to update our **Roche analyser method classification** (across all UK NEQAS Clinical Chemistry centres). Please take a look and contact us if you require further information.
- We are busy planning our 2026 Roadshow events. We will be coming to:

London, Liverpool, Glasgow and Belfast

A save the date will be coming your way soon!

Scheme Updates:

- We had an 82% response rate to the Q&A related to quality management aspects of serum indices, so thank you! There is a commentary on the **UK NEQAs for Serum Indices 202** report.
- We will be looking at the impact of haemolysis on Troponin at Distribution 203 of **UK NEQAs for Serum Indices**. Remember to follow instructions to reconstitute your specimen.
- We have been looking at Hb Variants and have an online survey. We will be keeping this open for a bit longer. So please respond if you haven't already.

EQA Nuggets:

You can register for your 2026/2027 EQA subscription using the Yellow Re-registration button on the Results & Reports webpage

Re-registration

You may have missed:

We now offer Urine Dipstick Readers as a method in our UK NEQAs for Urine Dipsticks EQA scheme
